# Introductory

The present volume constitutes the 1927 edition of Henderson's Directory of Regina. The work embodies a complete epitome of the civic, commercial, social and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have been proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 37 to 94, and contains data concerning City, Provincial and Federal Government offices, commercial organizations, cemeteries, churches (denominational and miscellaneous), colleges and schools, hospitals, homes and asylums, building exchange and associations, institutes and societies, libraries, military organizations, public schools, secret societies, etc.

THE STREET AND AVENUE GUIDE is embraced in pages 95 to 181; in this feature the names of all streets and avenues are arranged alphabetically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

THE ADVERTISING occupies pages 1 to 36; this section of the Directory, printed on colored paper, includes numerous advertisements of the leading manufacturing, business and professional interests. A casual perusal of these advertisements will picture many interesting phases of the city's activities. They are not display advertisements, primarily, however, but rather are reference advertising at its best. The need for this kind of information readily at hand is very great, and the general appreciation of this need is evidenced by the liberal patronage the City Directory enjoys in many and varied lines of trade.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations covers pages 185 to 495.

THE CLASSIFIED BUSINESS DIRECTORY commences at page 497, and exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

## ADVERTISING REGINA

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Regina, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

The directory estimate of population is based on the actual number of names contained in the book, which is multiplied by a common multiple to allow for the married women and small children whose names do not appear.

Based upon the names contained in the pages of this book, it is estimated that the population of Regina is 51,170. This includes considerable territory beyond the city limits, which is canvassed in order that the names of all people doing business in Regina may be obtained for the Directory.

Respectfully, The Publishers,

HENDERSON DIRECTORIES, LIMITED.

September, 1927.

# City of Regina

---

REGINA, the Capital and Seat of Government of the Province of Saskatchewan, is situated 357 miles west of Winnipeg on the C.P.R. Main lines. When incorporated as a city in 1903, Regina had a population of 3,000. Since then it has grown solidly and steadily, until today it is the fourteenth City of the Dominion, with an estimated population of 40,000.

REGINA is Latin for "Queen," and commemorates Queen Victoria. The name was suggested in 1882 by Princess Louise, Duchess of Argyle, the Queen's daughter and wife of the Governor General.

## HISTORICAL

The first settlers of the district arrived in May, 1882, and subsequently a canvas town sprang up where the trestle bridge carries the main track of the C.P.R. across Wascana Creek, about a mile west of the centre of the City.

The selection of the townsite of Regina was arranged jointly by the Government and the C.P.R. Company. Early in 1883 an officer of the North-West Mounted Police was sent to select a suitable place for the headquarters of the force, which had previously been at Winnipeg. On his return the lands at present occupied by the barracks were selected.

At this time an agreement had been completed between the Dominion Government and the Railway Company to enter into partnership regarding certain townsites, one of which was to be the seat of Government for the North-West Territories. Acting under this agreement the General Manager of the Railway Company, then W. C. Van Home, and Mr. Dewdney, the Governor of the Territories, selected four sections, viz: 19 and 30, township 17, range 19, and 24 and 25, township 17, range 20, west of the second meridian, to constitute the Townsite of Regina. These selections were subsequently vested in Messrs. Osler, Scarth, Smith and Angus, trustees to administer and divide the net proceeds between the Federal Government and the Railway Company.

The arrangement for the control of the townsite by the Townsite Trustees was terminated by Order in Council of 29th December, 1900, and by further Order in Council of 6th April, 1903, the granting to the Municipality of the lots in the Townsite which had reverted to the Crown was authorized.

Up to March 7th, 1883, when the Roundhouse was burned, Regina had been a Divisional Point on the C.P.R., but after that date the headquarters of the Division was removed to Moose Jaw.

By Order in Council, 27th March, 1883, the Town of Regina was declared to be the seat of Government of the North-West Territories, in place of Battleford.

In the Spring of 1883, the first school was opened in the town. The original Dominion Lands Office, a low frame building, was brought up on a flat car from Troy (afterwards called Qu'Appelle) and placed at the corner of Broad Street and Victoria Avenue.

A public meeting was held in April, 1883, to discuss the matter

of the site of the proposed post office, the site finally selected being on Victoria Avenue.

On May 13th, 1883, Lieutenant Governor and Mrs. Dewdney arrived to take up residence in Regina. They were met on arrival by a large number of citizens, and His Honor was presented with an address.

Regina was made a Money Order Point on July 1st, 1883. A public meeting was held and a citizens' committee formed to carry on the business of the town. Mr. John Secord, Barrister, was appointed secretary, and Sub-Committees were appointed on Finance, Sanitation, Fire and Water and Miscellaneous Affairs. A committee was also appointed to draft a charter of incorporation, and the Finance Committee were instructed to collect \$2,000 by public subscription for public works.

Elections for the North-West Council were held in August, 1883. Mr. William White was selected for the Regina district. The Fifth Council of the North-West Territories was opened by Lieutenant Governor Dewdney on August 22, 1883. A bill entitled, "An Ordinance Respecting Municipalities," was introduced in the North-West Council on September 12, 1883, and a public meeting of citizens was called to discuss the matter of incorporation.

In October, 1883, a lot on Eleventh Avenue, near Rose Street, was sold for \$275. At this time farm lands in the vicinity of the City were worth about \$5 per acre.

On Monday, October 8th, the Civic Council met and took final steps to comply with the Ordinance to provide Municipal Government. The Government Buildings, Council Chambers and Indian Office on Dewdney Street were completed in October. The first telephones privately owned were introduced into the town at this time.

Up to December, 1883, Regina had two chartered banks, the Bank of Montreal and the Merchants Bank. It was found, however, that there was not enough business for two banks, and the Merchants bank was therefore withdrawn.

Nominations for the first Municipal Elections took place on January 3, 1884. Two hundred and thirteen votes were polled, and the following were elected: J. W. Smith, J. A. Kerr, J. D. Sibbald, James Hambley, Daniel Mowat, W. H. Gibbs and Mr. D. L. Scott, who later became Judge of the Supreme Court of Alberta, was the first mayor.

Regina was incorporated as a City on June 19, 1903, under Chapter 28 of the Ordinances of the North-West Territories, 1903—04, and became the Capital and Seat of Government of the Province of Saskatchewan.

The Parliament Buildings, the erection of which was commenced in the fall of 1908, stands on its own grounds of about 160 acres, south of Wascana Lake and within the City Limits. It has well been said that there are no Parliament Buildings more dignified or better adapted to the needs of legislative work than those of the Saskatchewan Capital.

## CITY GOVERNMENT

The government of the City is vested in a Council. It is what is regarded as a modified form of Commission Government with the Council as the Legislative body, and the City Commissioners the

Executive. The powers of both are contained in "The City Act." The Council consists of the Mayor and ten Aldermen. Both are elected by a vote of the City at large. The Mayor is elected annually, while the Aldermen hold office for two years. The members of the Collegiate Institute, Public and Separate School Boards are elected at the same time and in same manner as Aldermen.

### **FINANCIAL CENTRE**

Regina is unquestionably the financial centre of the Province, and its development in this respect is most remarkable. No less than seven of the leading Chartered Banks have branches in the City, and with one exception have erected substantial buildings of their own.

The Bank Clearing House Association was established and commenced business on October 1st, 1909.

The 1926 Clearings are in excess of \$15,000,000 more than those of the previous year, being the highest since the record year of 1920.

Almost every loaning institution of importance in Canada has an office in the city, many of them occupying their own buildings.

A very large volume of business is transacted in the purchase and sale of bonds and debentures of the municipalities and school districts of Manitoba, Saskatchewan and Alberta, the City being the headquarters of Western Canada for this class of business. As an indication of this it may be said that the authorization granted by the Local Government Board for the issue of Municipal, School and Rural Telephone Debentures in Saskatchewan alone for 1926 amounted to \$2,920,761.

### **A RAILWAY CENTRE**

Regina is justly entitled to be termed a great centre for railways. Twelve lines radiate in all directions from the City and the Canadian Pacific and Canadian National Railways vie with each other in their endeavor to give Regina an excellent train service. In short, Regina serves 2,255 miles of Railway on which are located some 250 towns and villages.

### **GREAT DISTRIBUTING POINT**

Served by the Transcontinental Railway systems and numerous branch lines Regina offers unrivalled facilities for the distribution of merchandise in the middle West. As a distributor of farm implements, it has been spoken of as the greatest in the world, business in this line having reached \$25,000,000 in one year. Every Canadian and American implement manufacturnig firm of any importance has an agency in the City. This is due to Regina's geographical situation in the heart of the grain growing district of Western Canada, and its unequalled railway facilities.

### **MUNICIPALLY-OWNED INDUSTRIAL SITE**

The City of Regina ocupies a premier position as regards Canadian cities, and in fact a first position among American Cities, in that it owns a large portion of its original townsite. Three hundred acres of this original townsite, three blocks from the centre of the down town business and financial centre are reserved and developed for wholesale and manufacturing purposes. Provision is made for spur track accommodation to each site. Sewer, water, power, street

railway, pavements and walks are available throughout the area, and the freight depots of the railway companies are convenient to it. Over half in value of the area, representing seven miles of spur track frontage, has been sold and is in use for manufacturing and warehouse purposes. The City has still about six miles of spur track frontage for sale to bona fide businesses at satisfactory prices. Some seventy new businesses have located here since 1914, and Regina has a number of manufacturing concerns, upwards of 150 wholesale and over 360 retail houses located in the city.

## **MUNICIPAL OWNERSHIP**

The City is a firm believer in municipal ownership and owns its Street Railway of Which it has some 30 miles constructed within the City Limits; Light and Power Plant supplying cheap light and power and Water System. The number of passengers carried on the street railway during 1926 was 5,651,380 and its earnings \$328,654.54. The earnings of the power plant were \$672,482.38, and that of the waterworks for 1926 \$267,600.

## **CENTRE OF GRAIN GROWING PROVINCE**

Surrounding Regina is the finest grain growing district in the world. Saskatchewan is pre-eminently an agricultural province. It is the greatest grain growing province of Canada. Testifying to the quality of the wheat grown in the province it may be stated that Saskatchewan has won the World's Prize for the best wheat grown eleven times in the last sixteen years.

## **THE SASKATCHEWAN WHEAT POOL**

Since June 26, 1924, the Saskatchewan Co-operative Wheat Producers, Limited, properly known as the Saskatchewan Wheat Pool, has been officially in existence as a non-profit, co-operative, wheat marketing organization for the farmers of Saskatchewan. The acreage listed on February 1, 1927, as covered by the 80,600 odd contracts, is more than 10,500,000 of wheat alone; and this with the 2,600,000 acres of oats, barley, rye and flax covered by the 38,000 contracts included in the Coarse Grains Pool, makes a total of more than 13,000,000 acres of Saskatchewan cultivated land, the products of which are marketed under what is known as the pooling principle of co-operation.

When the Pool was officially declared in existence it had only 46,509 contracts. On June 1, 1925, the number of contracts was 52,475, in June, 1926, it was 72,500, and on February 1, 1927, as already stated, the number of contracts was 80,676.

The steady growth of the Pool is an indication of its popularity among the farmers of the province. During its first year of operation it handled 50,093,753 bushels of wheat. For the crop year of 1925-26 it handled 129,600,522 bushels.

Up to the first of August, 1926, the Saskatchewan Wheat Pool had acquired a system of 89 country elevators in the province, but at that date it took over the total elevator facilities of the Saskatchewan Co-operative Elevator Company, including 451 country elevators and a considerable amount of terminal elevator space. At the present time the Saskatchewan Wheat Pool owns and operates 587

country elevators in Saskatchewan and owns or controls a total terminal capacity at Fort William, Port Arthur and Buffalo of 17,075,000 bushels. In order to pay for these elevators, 2 cents per bushel is deducted, under the terms of the grower's contract with the Pool, from the gross proceeds from the sale of wheat, and, to date, approximately \$3,600,000 have been invested in this way by the farmers of Saskatchewan in Saskatchewan Pool Elevators, Limited, the subsidiary company of the Pool, which operates the elevator system.

Pool wheat for Saskatchewan, along with similar wheat from the Provinces of Manitoba and Alberta, is sold through what is known as The Canadian Co-operative Wheat Producers, Limited, with headquarters in Winnipeg. This organization is controlled by a Board of nine directors, three of whom are from each of the Provincial Wheat Pools, none of which sell any wheat themselves, but dispose of it through the Central Selling Agency. The latter organization has representatives in the most important European countries and last year disposed of a total of 187,000,000 bushels of wheat in about fifty-six different markets. Of this quantity 100,000,000 bushels was disposed of to Eastern European and Oriental buyers direct, through Wheat Pool agencies.

### **LIVE STOCK**

It has also been demonstrated that some of the choicest live stock in the world is bred in this province. At the 1926 Toronto Royal Winter Fair, Saskatchewan won 20 championships, 21 reserve championships and in addition 24 first prizes and 74 other prizes. At the Chicago International Live Stock Show it took 15 championships and reserve championships and specials, 14 first prizes and 37 other prizes. The Saskatchewan exhibits won a total of 273 prizes on their eastern tour, which included the shows already mentioned, this being more than was ever won in the history of these exhibits. According to the latest figures Saskatchewan has considerably over a quarter of a million more horses than any other province in the Dominion. Saskatchewan is also coming to the front rapidly with dairying and other branches of the best diversified farming.

### **RESIDENTIAL CENTRE**

In this respect Regina has been referred to as "The City of Beautiful Homes." Indeed, as a residential centre it offers every inducement to the homeseeker.

### **EDUCATIONAL CENTRE OF PROVINCE**

From the educational and social points of view, the City also offers every advantage. With a population of about 40,000 the City has the Regina (United) College, St. Chad's (Anglican) College, Campion (Roman Catholic) College, and the Provincial Government Normal School, as well as a Lutheran College.

Besides this group of Educational Buildings there is a Central Collegiate Institute, a large building of classic design, and the Scott Collegiate, which was erected, equipped and opened on the North Side, at a cost of \$150,000 in 1923.

In addition there are some 18 Public and Separate Schools, 28 Churches, Y.M.C.A. and Y.W.C.A., two Public Hospitals and several Private Nursing Homes; a Public Library with three branches;

several Business Colleges and numerous Societies for the advancement of Art, Music, Literature and Science; one daily Morning Paper, one daily Evening Paper, two weekly papers and several monthly trade publications.

As to amusements, the City has two dramatic and four Moving Picture Theatres. The lake adjoining the Parliament Buildings offers facilities for boating, bathing and skating. Many Fraternal Societies and other Organizations exist here devoted to amateur theatricals, debates, etc. The City is within easy distance of Last Mountain and Katepwa Lakes, two of the beauty spots of the province and delightful holiday resorts which afford excellent facilities for bathing, fishing and boating.

### SOME STATISTICS

Regina is the best paved city in Canada for its size, having some 38.26 miles of paved streets, 71.50 miles of graded streets, 54.62 miles of granolithic and 75.95 miles of plank sidewalks. The City also has some 84.36 miles of sewer with 8,731 connections; some 81 miles of water mains with 576 hydrants and 6,394 house connections; four fire stations with some 53 firemen and a full equipment of the most modern fire fighting apparatus; some 257 acres of parks, a trunk sewer and sewage disposal works and an incinerator plant for disposal of garbage.

### CITY HALL

Regina's City Hall is situated at the corner of Eleventh Avenue and Hamilton Street. The funds for its erection were to a great extent provided by the sale of the townsite lands, yet the City still possesses an asset in its saleable property which is valued at some \$1,767,024.25.

### HEADQUARTERS OF MILITARY DISTRICT

Regina is also the headquarters of Military District No. 12, which comprises the Province of Saskatchewan. This adds much to the business and social life of the City.

### COMMITTEES OF COUNCIL

At the beginning of 1916 the Council abolished the various Standing Committees and substituted therefor a Special Committee consisting of all the members of Council with the Deputy Mayor as Chairman. This Special Committee meets every Thursday evening at 7.30 o'clock and undertakes the duties and performs the functions of all the former Standing Committees.

Sub-Committees are appointed from this large Committee from time to time for the purpose of considering and reporting upon particular subjects and on any matters which may be referred to them.

### POLICE DEPARTMENT

Headquarters: Hamilton between 12th and Victoria Avenues.

The police department is under the control of the Board of Police Commissioners, consisting of the following:

His Worship the Mayor James McAra (Chairman)

His Honor J. W. Hannon (Judge of the District Court)

J. H. Heffernan (Police Magistrate)

The police force consists of a chief, two inspectors, four detectives, three sergeants, three patrol sergeants, two patrol drivers, twenty-eight constables, three clerks, janitor and matron.

Chief Constable—M. J. Bruton

### STREET RAILWAY

The construction of the street railway as a municipal enterprise was projected in 1910. Actual construction began in the early part of 1911 and operation of cars on same was commenced July 29, 1911. At this time the system consisted of about six miles of track and six cars. Now there are 30 miles of track within the city limits, 14¾ miles of this being in pavement. The rolling stock is as follows:

34 passenger cars

1 snow plow

2 Sweepers

1 motor haulage car

30 freight cars

The total expenditure up to December 31st, 1926, was \$1,790,657.33 of which \$266,065 was for cars and car equipment.

Operation statistics for the years 1925 and 1926 are as follows:

	1925	1926
Revenue Passengers carried .....	4,794,775	4,981,674
Transfer Passengers carried .....	658,599	669,706
Total Passengers .....	5,453,374	5,651,380
Passenger Car Miles .....	1,055,155	1,053,595
Other Car Miles .....	10,838	11,470
Total Car Miles .....	1,065,993	1,065,065
Passenger Revenue .....	\$298,073.19	\$308,368.85
Other Revenue .....	16,958.48	20,285.69
Total Revenue .....	\$315,031.67	\$328,654.54
Operation Expense .....	235,140.35	235,832.48
Operation Surplus .....	79,891.32	92,822.06

The following fares were effective during the year:

Cash—10c.

Tickets—4 for 25c.

Tickets—8 for 25c. (Children over 5 and under 14 years)

Tickets—17 for \$1.00 (book)

All cars in regular service are operated by one man. This method of operation has proved practicable and made a big saving in operating expense.

The construction of a block of track on Edward Street completed a loop between Dewdney Street and the Stadium. This has greatly facilitated the handling of large crowds to and from the professional hockey matches and other events held in the Stadium.

About two-thirds of the revenue, other than passenger, is derived from freight haulage. The Department delivers all coal to the city and Provincial Government power houses, and handles garbage from a central transfer station to the civic incinerator.

## GENERATING PLANT

A modern generating plant, located on the shores of Wascana Lake, corner Winnipeg and Douglas Avenue, generates all power for the city. It has installed two 5,000 k.w. Curtis, one 3,000 and two 1,500 k.w. Willans (Seimens) turbines, six 500 h.p. Babcock and Wilcox water tube boilers, fitted with Riley Underfeed Stokers. The plant has all modern labor saving devices and shows excellent economy in generating.

## SUBSTATION

No 1 Plant is now employed as a substation and water pump plant, and for the supply of street railway power has installed one 1,200 k.v.a. street Peebles motor converter and two 400 k.w. Seimens generators, driven by one 1,200 h.p. Synchronous motor. It has also two motor driven water pumps, five million and seven million gallons capacity respectively.

## REFUSE DISPOSAL SYSTEM

Regina has now in operation one of the most modern refuse disposal plants on the continent. All refuse collected from the city is hauled to a central transfer station, where it is loaded into steel

dump cars. From the transfer station, which was specially constructed for this purpose at a cost of \$20,000, the refuse is transferred over the street railway to the incinerating plant at the disposal works, a distance of two and a half miles. The incinerating plant, recently constructed at a cost of \$64,000, has a capacity of 110 tons per 24 hours and is modern in every particular. It is proposed to utilize the steam generated at the plant to drive the pumps at the disposal works and to light the grounds.

## WATER WORKS SYSTEM

The water works system is owned and operated by the city. The supply of water is obtained from springs and artesian wells in the valley of Boggy Creek, about eight miles northeast of the city. A dam constructed across the Creek impounds about 100,000,000 gallons of water which replenishes the creek in times of drought. More than 65 wells have been sunk through clay to the water-bearing gravel bed found at an average depth of 100 feet. These wells overflow and yield pure sparkling water. Regina is in a unique position, and it is the only known instance of a large city deriving the bulk of its supply of water from overflowing artesian wells. A further number of wells will be sunk from time to time as requirements increase. The water is collected into the Barton Pump Well (270,000 gallons capacity), and is raised into the Tor Hill reservoir by means of two 2,000,000 gallons per day turbine pumps, one direct connected to a 75 h.p. electric motor and the other to a 100 h.p. electric motor or either pump can be driven by oil engines. Tor Hill reservoir is a circular reinforced concrete construction, has a capacity of 5,000,000 gallons and stands about 125 feet above the city level; it is 202 feet in diameter and the maximum depth of water is 25 feet. The spring water is conveyed by 15-inch vitrified pipe to the compensating basin, and thence by 10-inch cast iron main to the city pumping station. The artesian well water gravitates from Tor Hill reservoir to the city through 18-inch pipe.

A rectangular reinforced concrete reservoir is situated near the city pumping station. It is 150 feet long, 153 wide and holds 21 feet of water, its capacity is 5,000,000 gallons.

The compensating basins have a capacity of 1,065,000 gallons.

At the City Pumping Plant the equipment consists of two 2½ million gallon per day, and two 3½ million gallon centrifugal pumps, both sets having parallel and series connections which enable them to deliver their capacity at 60 pounds pressure or half capacity at 120 pounds pressure. Prior to 1924 both sets were steam driven. For greater economy in operating what is largely a standby service electric motors have been purchased and installed on both sets. The capacity and pressure of the pumps will remain the same. To provide a standby in case of electric failure, a new pumping unit has been added, consisting of two 3,300,000 gallon per day centrifugal pumps, each driven by a gasoline engine. These pumps are capable of delivering their rated capacity at 100 pounds pressure.

The normal domestic pressure by gravity is 25 to 40 pounds per square inch, which can be increased by pumping.

The distributing system consists of two trunk mains 24 inches in diameter, one 18-inch, with a Venturi meter on each line, the gridiron connections range down to six inches. The total length of the distributing mains is 67½ miles and of supply mains 14 miles.

## CEMETERIES

Regina City Cemetery, n.s. 4th Ave at Scarth N.

## PARKS

The present area of land set aside for public park purposes is 257 acres. Wascana Park is the largest, being about 45 acres in extent. The value of this land with improvements is estimated at \$3,300,000.

**Alexandra Park**—Generally known as Broad Street Park, is used as a children's playground, and is equipped with suitable apparatus. It is proposed to lay out several other playgrounds in different parts of the City in a similar manner, with a view to conforming as far as possible with the school curriculum of playground teaching.

**Broad Street Park**—Situated on the north side of Victoria Avenue between Osler and Broad Streets.

**Stanley Park**—Facing the Union Depot, is laid out with walks, flower beds, treest, shrubs and lawns, and forms an appropriate setting for the station of the Canadian Pacific and Canadian National Railways.

**No. 2**—Park de Young, between 9th and 10th Avenues, Retallack Street and Robinson Street, is used for baseball.

**No. 3**—Block 255, between 9th and 10th Avenues, Robinson Street and Cameron Street, is used for football.

**No. 4**—Block 330, and a portion of 329, between Victoria Avenue West and South Railway Street, Argyle Street and Princess Street. These grounds are available for baseball, football and tennis courts.

**No. 5**—Mayle Leaf Park, south-east.

**No. 6**—Blocks 70 and 71, north-east.

**Victoria Park**—One block from the Post Office, in the heart of the City, has an area of over 7 acres. This park is laid out in an ornamental scheme, with a fountain in the centre, while trees, shubbery and flowers are used to good advantage in beautifying it.

**Wascana Park**—Situated to the south of the City, has a frontage of a quarter of a mile along the Wascana Lake. This lake extends for nearly two miles east, and affords excellent facilities for boating, bathing and skating, of which full advantage is taken. A large boat Club building and boat livery are situated on the shores of the lake. A civic bathing house is maintained for the free use of the public. Some 35,000 men, women and children use the pool from June 1st to September 15th. A band stand occupies an appropriate position in the park and frequent band concerts are given. This park, adjoining as it does, the grounds of the Regina College, and being in full view of the lake and Parliament Buildings, offers ample opportunity for development.

## EMMANUEL COLLEGE

### In Affiliation with the University of Saskatchewan

The College is governed by two bodies, a Statutory Council, composed of ex-officio and elected members. Its appointment is regulated by canon and the elected members retire by rotation. Also by a Board of Governors appointed by the Colonial and Continental Church Society of London, England. The Council grants standings in Theology, and the Board controls all matters affecting the welfare of the College, and the proceedings of the College are reported annually to the synod of the Diocese of Saskatchewan. The Educational Committee is made up of the Faculty, together with the Bishop, and three clerical and three lay members of the Board of Governors.

The College provides (1) an associate course in Theology, (2) a pass course leading to the Testamur, (3) a course leading to the Licentiate in Theology, and (4) a course leading to the Degree of Bachelor of Divinity.
